

Name: Aya Osama Sayed.

Address: Qalyubia Governorate - Qalioub Center - Sanafir Village.

Mobile: 01067587213.

E-mail: ao0010512@gamil.com.

Career Object : Studying in the first division, Department of Electricity - Communications. The defense that allowed me to enter the department is my love towards robots and electronics and everything related to them and from here I began to search and see what I needed in order to excel in the field and started searching on YouTube and I knew that I needed to know programming languages in order to be able to program the robots and the Hard part So, I can implement it, and I started from here the first thing I started with the software part and started with programming languages like c, c ++.

From the hardware side, I began to see the Arduino, the motors and the sensor, and I continue to know every need about them in detail and I began to see complete projects in order to be able to apply my work.

The goal that I want to join the village is to experience and gain experience and knowledge about the labor market, and to develop the skills of the Software, and I try to help you as much as possible.

Education:

Faculty of Engineering at Shubra, Benha University.

Communications Electricity Department.

Very well appreciated.

the first group.

I hold a high school degree of 97 percentage.

Work experience: Associated with Two team, they are IEEE and The Team. Interested in projects, Robot and have implemented projects like the Arab ones that are powered by Bluetooth, LedMatrix, etc.

Professional Development: Embedded System, Pn Junction ,cairo(3months),(May2020\_July2020).

Professional Training:.

C,C++,Udemy,(2months),(March2021,May2021).

Volunteering

work:..MikyalCreatingHappiness ,member of public relations Head
